

PRODUCT GUIDE

Soil Activators

SAFE
FERTILISERS

Activ-8 Certified Organic BFA 10574AI

**6.5% Humic Acid + 3% Kelp Concentrate + 1.35% Potassium +
Traces. Blended in Fermented Plant Extract.**

Key Points

- Certified Organic soil activator
- Assists in building plant cells to resist pest & disease pressures
- Soil conditioner that stimulates microbes
- Plant root stimulator for nutrient conversion
- Vital nutrients from Natural plant ferment base
- Allows for free-flow of nutrient into plant cells
- Aids in the development of larger root structures

Improved Plant Health reduces input costs through efficiency.

Activated Response

This liquid Soil activator gives plants the benefit of available nutrient from the life force contained in humus, made available through a fermented plant extract. Activ-8 is giving plants the essential start in life that plants need through root stimulation.

Typical Analysis (w/v)

Nitrogen	-	Boron	0.01%
Phosphorous	-	Copper	-
Potassium	1.35%	Zinc	-
Sulphur	0.06 %	Cobalt	-
Calcium	-	Plant Ferment	-50%
Magnesium	0.05%	Enzymes	3%
Iron	-	Carbon as Humic Acid	6.5%
Manganese	-	Kelp Concentrate	3%

Product Specifications

Form: Liquid Energy

PRODUCT GUIDE

Soil Activators

Application Guide

Application Rates should be determined by a soil analysis and applied in conjunction with a balanced nutrition program. The following rates are generalized, for intense horticulture these rates could possibly be increased. Contact a Safe Fertilisers Qualified Consultant for assistance

Activ-8 is best applied direct into soil before planting or Direct Boom Spray application; Irrigation Lines or Horticultural spray applicators are ok. Shake container before use. (It is natural for Activ-8 to have some sediment in the bottom of the container). Follow the label for applications.

Rates: Irrigation, 2-3 lt/Ha liquid injection

Dry land 2 lt/Ha Liquid injection or Ground Rig application

Horticulture: 3-4 lt/Ha Spray Application

Compatibility: Check with a Safe Fertiliser Consultant prior to blending this product with other liquid fertilisers

Safety; Avoid contact with skin and eyes. Wash or shower after use. If swallowed seek medical advice.

Active-8 contains a liquid ferment supplying organic compounds, minerals, vitamins and amino acids. This extract is then mixed with a combination of kelp concentrate, enzymes and humic acids (derived as an alkaline extract of lignite from Victorian brown coal deposits) and trace elements.
