

PRODUCT GUIDE

Mineral Fertilisers

SAFE
FERTILISERS

Micro-Carb

0.25% Phosphorous +3.47% Calcium+ 60% Carbon + Natural Minerals.

Key Points

- Rebuilds Tired and worn soils through remineralisation
- Builds critical levels of many trace elements
- Increases soil carbon levels for energy, water and nutrient holding capacity
- Increases the ability of plants to resist pest and disease attack.
- Greater Biological activity in the soil promotes availability of both target and other tied-up nutrients in the soil

Improved Soil Health reduces input costs through efficiency.

Activated Response

Bio Carbon & Mineral Technology with Rock Phosphate successfully combined with a complex organic carbon concentrate. This blend has been delicately handled to ensure the full benefit of a nutrition catalyst to enhance ion transfer and their enhancement of cell wall permeability.

Typical Analysis (w/w)

Nitrogen	1.2%	Boron	74 ppm
Phosphorous	2500ppm	Copper	125 ppm
Potassium	6500ppm	Zinc	350 ppm
Sulphur	5200 ppm	Cobalt	1 ppm
Calcium	3.47%	Molybdenum	25 ppm
Magnesium	1.2%	Selenium	1 ppm
Iron	1.4%	Carbon	60%
Manganese	104 ppm	Silicates	2%

Product Specifications

Form:	granule	Energy	500- 900 p.mag

PRODUCT GUIDE

Mineral Fertilisers

Application Guide

Application Rates should be determined by soil analysis and applied in conjunction with a balanced nutrition program. The following rates are generalized for irrigated and dry land cropping, for intense horticulture these rates can be increased. Contact a Safe Fertilisers Qualified Consultant for assistance

Alroc Micro-Carb is best applied broadcast or Direct Drill (Warning, it can be abrasive with air seeder application), Horticultural Spinner Spreaders and small walk behind Applicators.

Maintenance: 80-150 Kg/Ha

Soil Building: 150-250 Kg/Ha

Horticulture: 250-350 Kg/Ha

Compatibility: Check with Safe Fertiliser Qualified Consultant prior to blending this product with other fertiliser

Note; This Blend can be used to uniquely formulate a fertiliser to suit a specific need in any crop

Alroc Micro-Carb; Natural Minerals, Composted Carbon, Rock Phosphate Organically granulated and coated with a unique nutrient activator and soil catalyst. This unique balance of natural minerals sourced from the bowels of the earth ensures that the soils nutrient bank is complete for vibrant growth of crops. The added benefit of humic acid, not only give energy but nutrient holding capacity.
