FERTILISERS

Liquid Lime BFA Certified 10574AI

70% Calcium Carbonate w/v, ultra-fine 2 micron particle size

Key Points

- Provides immediately the available high analysis Calcium replenishment
- Helps plants from seedling, through growth to harvest
- Aids in cell repair with damage caused by wind, hail, frost and water logging.
- Increases the ability of plants to resist pest and disease attack.
- Stimulates early Growth and increases brix levels

Improved Plant Health reduces input costs through efficiency.

Vital Response

This boost of liquid nutrition gives plants the benefit of available Calcium in the ultra fine form. 20lt/ha provides the equivalent soluble calcium contained in 4 tonnes of limestone

Typical Analysis (w/v)

Nitrogen	0	Boron
Phosphorous	0	Copper
Potassium	0	Zinc
Sulphur	0	Cobalt
Calcium	665gms w/v	Molybdenum
Magnesium	35 gms w/v	Selenium
Iron	0	Carbon
Manganese	0	Silicates

Product Specifications

Form: Liquid Energy

PRODUCT GUIDE

Vital Organic

Application Guide

Application Rates should be determined by a soil and leaf analysis and applied in conjunction with a balanced nutrition program. The following rates are generalized, for intense horticulture these rates could possibly be increased. Contact a Safe Fertilisers Qualified Consultant for assistance

Vital Organic Liquid Lime is best applied direct onto the soil or the growing leaves of the plant by Boom Spray application, Irrigation Lines or Horticultural spray applicators. Liquid Lime is a suspension Liquid, but once it is put into a sprayer system with water it must be kept agitated. Clean spray lines immediately after application with clean water.

Rate: 20 lt/Ha in 200-400lt water

Stressed 40 lt/Ha in 200-400lt water, Hand Spray or Boom spray application

Horticulture: 5-8 lt/Ha in 100 lt water, Spray Weekly

Compatibility: Check with a Safe Fertiliser Consultant prior to blending this product with other liquid fertilisers

Safety; Avoid contact with skin and eyes. Wash or shower after use. If swallowed seek medical advice.

Vital Organic Liquid Lime; Plant available Calcium, organically mixed and suspended with a unique agent to keep the highest quality in an easy to apply form. This unique product enables the producer to manage the vital nutrients required for plant health in a professional way. Calcium can be applied anytime within the growing season adding flexibility to the work program.
