

## Pineapple Program

**Biology Kick start;** Apply 10 lt /ha Vital Activator

### **Ground preparation:**

Apply 1 tonne/ha Lime **or** Liquid Lime @ 40lt/ha in 300lt/water

Apply 400kg/ha DAP Supablend

Apply 100Kg Alroc CBM

Liquid spray 15lt Vital Phos in 300 lt water

### **Side Dressing**

Liquid Lime @ 20lt/ha in 300lt/water or through your water system

Apply 100 Kg/Ha NPK 9.5.7 Supablend

**Foliar Apply;** Vital Mix monthly during growth stages @ 6lt/ha in 300lt water

6Lt/Ha Vital K Blast monthly from fruit set

### **Sidedressing / Maintenance after picking**

Apply 400 Kg/Ha NPK 9.5.7 Supablend This can be applied split in two applications, Use 70kg/ha Safe Coated Urea Spread on with spinner spreader, again two applications is ok

Use one application of Liquid Lime @ 12lt/ha to assist the balancing of conductivity and low calcium

### **Liquid Feed, Growth Stage**

Vital Mix @ 4lt/ha monthly

Vital Activator @ 10lt/ha one application

Vital Kelp @ 6 lt/ha one application

### **Liquid feed, Fruiting Stage**

Vital K Blast @ 10lt/ha Monthly

Vital Calcium, @ 8 lt/ha one application

**Monitor potash,** may need Sulphate of potash topup

### **Top up Fertiliser requirements:**

#### **Nitrogen:**

Use 40kg/ha Alroc CBM side dress applied with 6lt / ha Vital Activator sprayed as side dress
